

Sumanth Reddy Thummala

As an enthusiastic graduate eager to pivot from chemical engineering to a dynamic career in Software Engineering, I bring a unique blend of analytical thinking, proactive learning, and a passion for innovation. I seek challenging opportunities where I can fully use my skills for the success of the organization. I'm good at keeping a team together and producing a quality work in a team environment.

MySQL

CSS

SOFTWARE DESIGN

UI/UX DESIGN

TEAM COLLABORATION

PROJECTS

MINI PROJECT ON MICRO PLASTICS

- Prepared a Literature view on micro plastics

Fabrication of Glucose detecting Biosensor

- Fabricated a biosensor from scratch to detect glucose biomolecules using cost effective raw materials for a wider scope of study

Inventory Management system (Web Application)

- This project makes it easier for the store/inventory administrator to maintain product records in the proper way.
- The inventory management system does perform all the functions like users can ADD, DELETE, UPDATE, and many more.
- By using the HTML, CSS, DJANGO AND JAVASCRIPT, we built this web application.

CERTIFICATES

PUBLIC RELATIONSHIP INTERNSHIP at BFactory (10/2019 - 11/2019)

Certificate of full stack java developer training (06/2022 - 11/2022)

I have be trained at 360 digrii institute in full stack java developer
