

Professional Summary:

- Around 1+ years of IT Experience in UI/UX designing and developing User Interface (UI) applications and professional web applications using **React JS, Redux, Vue JS Material UI, HTML5, CSS3, ES6, Type Script, JavaScript, JQUERY, AJAX, JSON, NodeJS, Express.JS, AWS and Azure.**
- Worked with the **Material-UI** library for the designing purpose while creating the functional components which can be reused.
- Responsible in supporting the application which is in the Production and troubleshooting the JS application.
- Experience in **Object-Oriented Programming** in JavaScript.
- Created applications with **React JS** and one of the libraries like **Redux.**
- Worked with **React's** new Hooks like **useState, useEffect, useReducer, useRef.**
- Incorporated **react-redux** for global state management, mainly for authentication process, and added **redux-thunk** for asynchronous handling.
- Developed a drag and drop layout using **React-Grid-Layout** library.
- Developed a full stack application with **Express JS** framework in **Node.JS** environment.
- Experienced in using the **NPM** packages like **MongoDB** to integrate MongoDB into web applications and performing **CRUD** and Aggregation operations on collections.
- Expert in implementation of **Responsive Web Design** for various devices/browsers using bootstrap and different kinds of **Media Queries.**
- Good experience in CSS backgrounds, CSS padding, CSS borders, pseudo classes, pseudo elements, **CSS Flex** and setting standards for consumer applications and have a good knowledge on **LESS** and **SASS.**
- Worked with the team members to solve the problems, plan the data structures, and data designs to resolve the customer problems.
- Involved in all stages of Software Development Life Cycle (**SDLC**) as well as working in **AGILE** Methodologies based development environment, participating in spring/iterations and **SCRUM** meetings.
- A result-oriented professional with good communication, leadership, team management, analytical and co-ordination skills.

Education:

- Bachelor's from K.S.N Government Degree College, Anathapuramu– 2022

Technical Skills:

Web Technologies	React JS, Redux, Vue JS, JavaScript, Typescript, Node JS, Express.JS, Adobe photoshop
Databases	SQL, MongoDB
Build and Release	Jenkin
Management Tools	Jira
Development Tools	Visual Studio Code, Notepad++

Professional Experience:

Brightcom Group Pvt Ltd
Fullstack Developer

Nov'2022 – Till now

Responsibilities:

- Developed application using **ReactJs** and **Redux** as main framework and leveraged many supporting libraries for rich UI.
- Developed **Node Js** APIs for mock data for the frontend redux-form fields.
- Design, develop and test **HTML5, CSS3, Bootstrap, JavaScript, and React** that meets accessibility and web browser standards for website.
- Proficient to build reusable components.
- Used **React Js** in components like **JSX**, creating React components, Virtual.
- Designed CSS templates for use in all pages on the website working with **CSS** Background, positioning, text, border, margin, padding, and table.
- Applied optimization techniques to reduce page size and load times to enhance user experience using sprites.
- Responsible for developing a front-end application using **React Js** and **Redux** architecture for internal team's productivity use.
- Implemented react JS code to handle cross browser compatibility issues in **Mozella, IE 7, 8, 9, Safari** and **FF**.
- Hands on communicating with data base engineers for data modeling and schema design and connecting to **No SQL** Data base, **MongoDB**.
- Used **React-Router** to turn application into Single Page Application
- Worked in using **React JS** components, Forms, Events, Keys, Router, Animations and Flux concept.
- Worked on responsive design and developed a single **ISOMORPHIC** responsive website that could be served to desktop, Tablets and mobile users using **React.js**.
- Component for **UX-Library** consisted of **Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown** and many more.

- Called the Restful web services calls for **POST**, **PUT**, **DELETE** and **GET** methods.

Environment: HTML 5, CSS3, JavaScript, Bootstrap, Ajax, React JS, Redux, GraphQL, JSON, Git hub, Restful API, AWS, JIRA.
